

#5

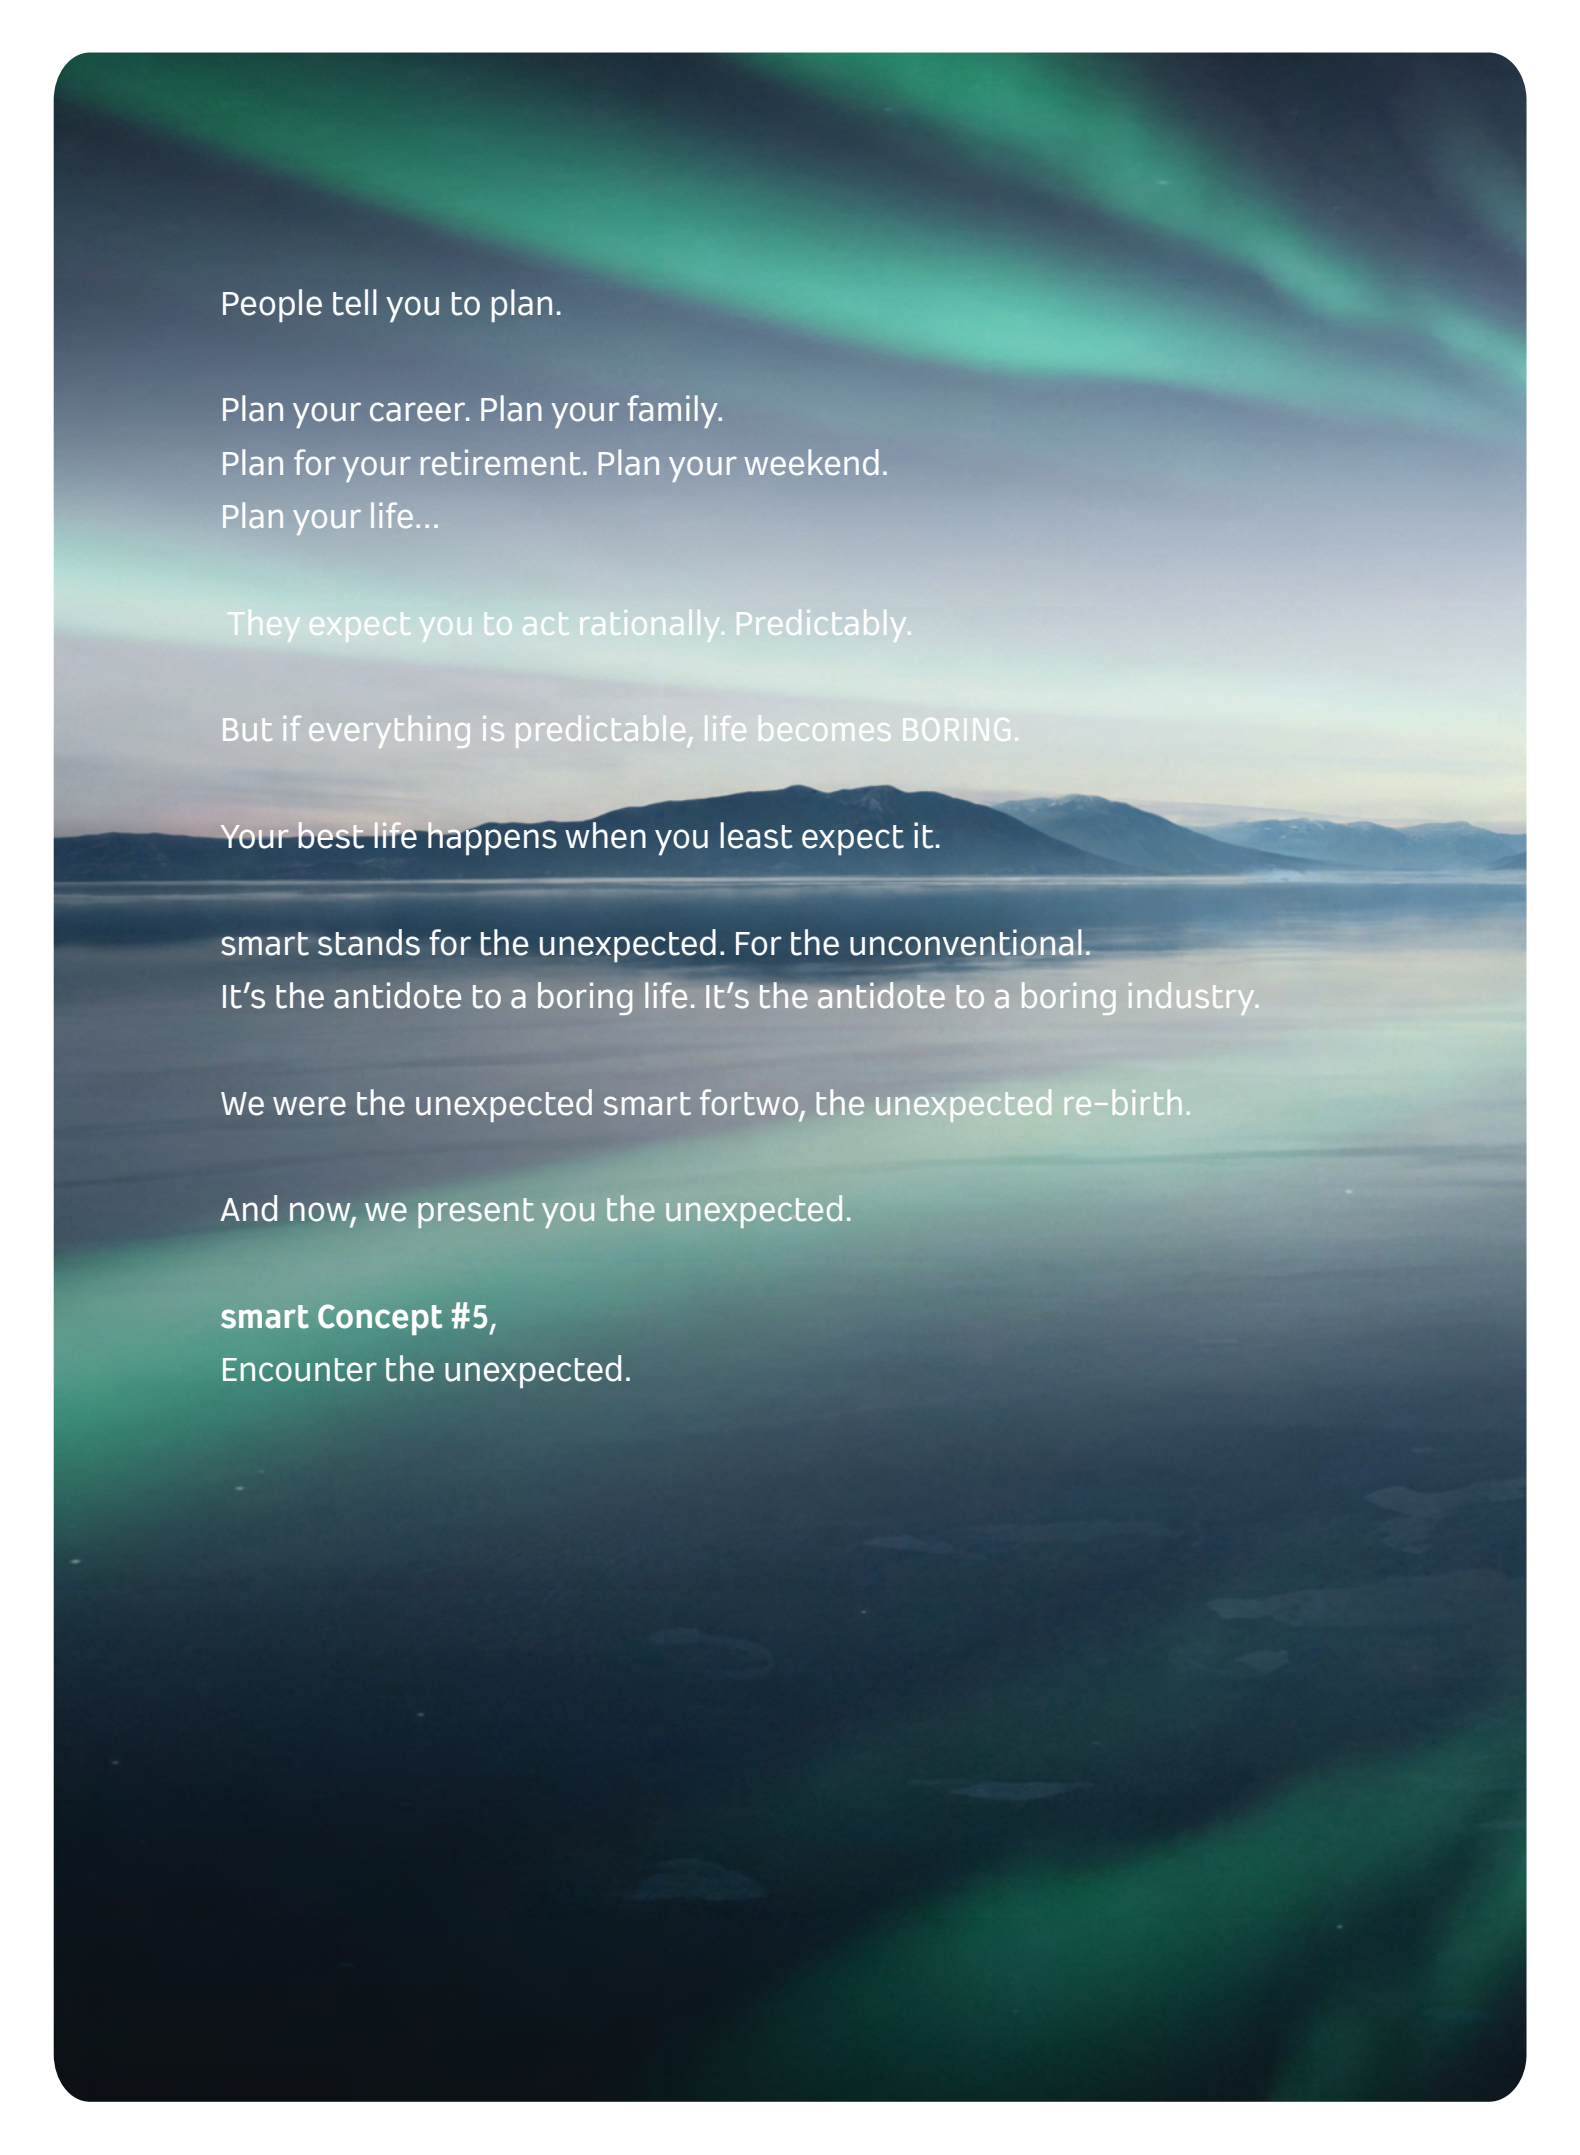

Encounter the unexpected.

Concept car, not available for sale.

smart Concept #5

People tell you to plan.

Plan your career. Plan your family.
Plan for your retirement. Plan your weekend.
Plan your life...

They expect you to act rationally. Predictably.

But if everything is predictable, life becomes BORING.

Your best life happens when you least expect it.

smart stands for the unexpected. For the unconventional.
It's the antidote to a boring life. It's the antidote to a boring industry.

We were the unexpected smart fortwo, the unexpected re-birth.

And now, we present you the unexpected.

smart Concept #5,
Encounter the unexpected.

Design

All-terrain tire

Roof light bar

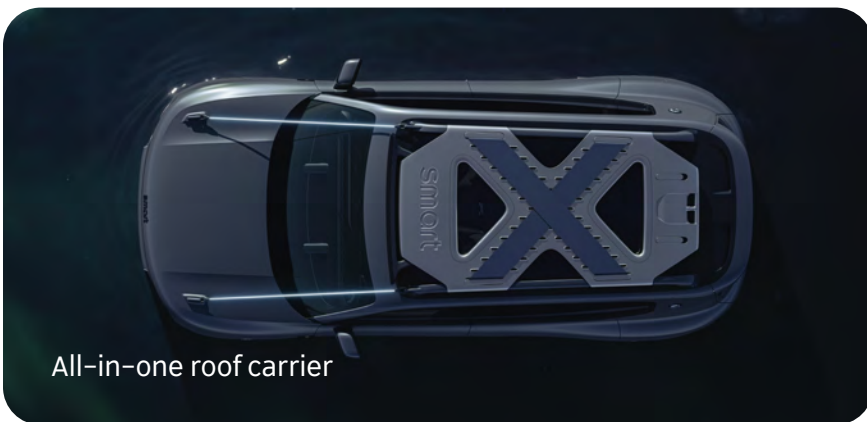

Signature front lamp

Rear-hinged door & Four-seat configuration

Signature rear lamp

All-in-one roof carrier

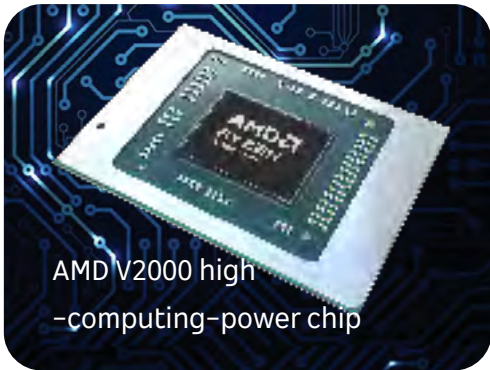

Tire pressure display

First-class intelligent comfort

Intelligent Comfort

AMD V2000 high
-computing-power chip

Interstellar Voyage light show

Dual 13-inch OLED displays &
New HMI design

Zero gravity seat
(with industry's first cushion airbag)

Portable speaker

Off-road driving modes

Outdoor Capabilities

Built-in projector

AWD

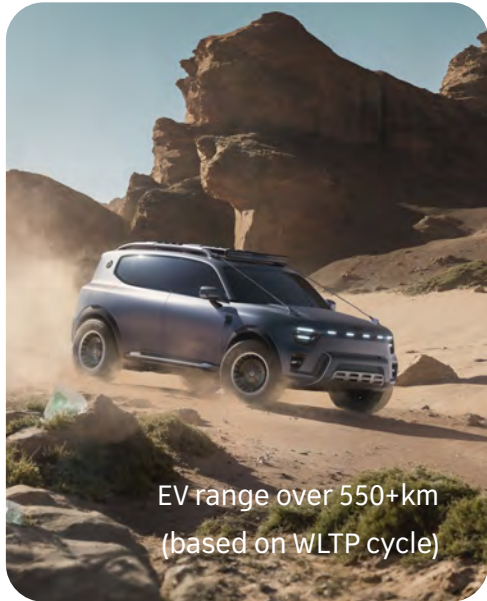

Cloudbreak #5 Tent
by Heimplanet

EV Technology

Battery (nominal) capacity:
100+kWh Super charging capability (4C)

EV range over 550+km
(based on WLTP cycle)

800V high-voltage platform

Concept car, not available for sale.

Concept #5 Product Highlights

Design	Adventurers' Collection
Interstellar Voyage light show	All-in-one roof carrier
Signature lights	Integrated camping kit
Rear-hinged door	Foldable rear step & foldable winch cover
Four-seat configuration	Roof light bar
Illuminated side step with projection	Portable speaker
Branch deflector for off roading	Built-in projector
New HMI design	Cloudbreak #5 Tent by Heimplanet
Intelligent Comfort	Outdoor Capabilities
Spacious interior with maximized space utilization	Off-road driving modes
AMD V2000 high-computing-power chip	AWD
Zero gravity seat (with industry's first cushion airbag)	Vehicle to Load (V2L)
Dual 13-inch OLED displays	All-terrain tires
Intelligent in-vehicle interaction technologies powered by AI	Tire pressure display
EV Technology	ADAS
Battery (nominal) capacity: 100+kWh	LiDAR
EV range over 550+km (based on WLTP cycle)	Urban NSP (navigate on smart pilot)
800V high-voltage platform	
Super charging capability (4C)
