

PATERI

Historically valuable Rakuunamäki area is undergoing a major change. Military facilities are leaving the area, and soon to be empty buildings need to be reused. PATERI is a social housing concept for the barrack number 1.

PATERI consists of 24 apartments and social facilities. Apartments ranging from 34m² to 148m² invites a diverse range of residents from all the social groups to the building. Vast amount of social spaces for the residents and outside tenants include workshop, movie room, event spaces and sauna. 3rd floor, nowadays just an empty attic, will be transformed into a new inhabitable floor. Respecting the old brick structure, only the roof will be modified. New rectangular roof blocks "slice" the old roof structure, giving the handsome brick barrack a minimalistic addition.
